The donations will make it possible to guarantee the annual supply of diapers to the children of the Tuuru Centre - Kenya, taking care of the hygiene of the children with specific products and optimizing the water resources.

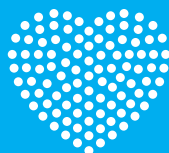

FOR DONATIONS KINDLY INDICATE THE CODE OR THE TITLE OF THE PROJECT.

“Tuuru Children’s Home” in Kenya offers multiple services, taking care of children and young people suffering from disabling diseases, even very serious ones. The Centre is home to both children with severe psychophysical disabilities, a nursery school and a “special” school for children, who can thus take advantage of an integral education. The hardship of the road that connects to the village of Tuuru and the peculiarity of the people hosted by the Centre mean that there is a constant need for water, which sometimes fails in the area, and material for early childhood.

Almost 100 children with disabilities need constant assistance. Among the welcomed guests we find children with spinal problems or children suffering from severe spastic tetraplegia, who do not have any type of motor autonomy and are assisted at all times by qualified personnel who allow them to face life with love.

THE CENTRE HOUSES CHILDREN LIVING WITH PSYCHO-PHYSICAL DISABILITY, A KINDERGARTEN AND A “SPECIAL” SCHOOL
