Cottolengo Educational and Charitable Society (CECS) is an organization founded in 1996 at Ernakulam (Kerala State in the South India). It is composed of Cottolengo Priests and Lay people who work in unison for the good of the poor and the needy.

The specific objective of the initiative is to offer a professional formation to diversely-abled students in the age bracket between 18 to 35 years, with the aim of preparing them for the job market, by involving their families.

The initiative intends to take in 25/30 students per course. The formation will involve qualified teachers in collaboration with the other workers. The Cottolengo Priests guarantee coordination.

During the formation there will be carried out periodic evaluations, and to the participants a certificate of attendance will be given at the end of the course. Attendance of occupational workshops, all run by competent workers, with the aim of preparation for job market (e.g. tailoring, embroidery, book binding, information technology, cookery, social agriculture, mechanics etc).

The results expected are social and work integration for the youth people living with disability through various support services: connection with potential employers and businesses in order to find job placement; interaction with credit institutions that are ready to support the new businesses through microcredits. A professional centre with rehabilitation and workshop

adapted for youth living with disability, for Nilambur community, is a long-time dream. The equipping of the centre will open the way for a better life conditions for the students and their families.
